

Clark Forklift Part

Clark Forklift Parts - Presently, there are no less than 350,000 Clark forklifts performing globally, and in excess of 250,000 in use in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique designs of lift trucks, with parts covering more than 120,000 particular components for all of its automated equipment. Your regional Clark Supplier is your complete source for availability of all your parts requirements offered by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently located in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a really outstanding global support network. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional commitment to safety is now a customary feature on every forklift.

Clark has a unyielding mission to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production facilities. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental restrictions, thus placing them in a dominant market position.

Clark has chosen the extremely economical and advantageous system of "Lean Manufacturing" for its assembly plants and use of resources. This structure was established to acknowledge the most successful approaches of production facility stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to enhance the proficiency and excellence of their products while minimizing expenses. The new value engineering program combines progressive product growth and offers improved customer support and service within the industry.
