

Meritor Part

Meritor Parts - Meritor is a premier global supplier which is proudly built on a one hundred year custom of quality and service. They concentrate on several modules, integrated systems and parts to original equipment makers and the aftermarket for the transportation and industrial trades.

Meritor values the wishes of all their clients to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their competitive advantage in their worldwide operations. Meritor begins with a culture which values diversity of people and their broad thought processes. Operating in 19 countries and employing over eleven thousand two hundred individuals, Meritor promotes collaboration and innovation amongst a team of knowledgeable experts.

Meritor strongly believes in just employing future focused workers. These top-caliber workers could quickly get used to to changing environments and freely demonstrate the level of performance and commitment considered necessary to attain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to enhance the overall success of the business. In return, Meritor offers their employees different chances for professional and personal growth.

Their Advanced Engineering team is at the forefront of parts and system engineering which comprise drivelines, axles, braking and suspension systems designed for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is also responsible for supporting the needs of their global engineering staff.

Meritor's customer focused and dynamic Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated all around the world in 19 countries and in 5 different continents.

The supplier development network is specially situated to support new business growth. Regional teams are supported by global initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making in each part of the company. The DFSS or otherwise referred to as Design for Six Sigma ensures product reliability within each region. The team is also comprised of transactional Green Belts who apply Six Sigma tools to business methods and apply lean techniques.
