

Spreader Bars for Forklift

Forklift Spreader Bars - ELME has been proudly operating since the year 1974, becoming the largest independent spreader producer in the world. They are a devoted producer of spreaders utilized for many various applications like the handling of containers, swap bodies and trailers.

Engineering is done in house by means of utilizing the newest FEM tools and CAD systems. The ELME company now employs over one hundred twenty five workers. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks all-around the world.

The product range of ELME includes numerous spreaders for several container and trailer handling operations. Some of their inventory comprises: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks and a huge variety of attachments.

Manufacturing and production of ELME products are established in highly automated purpose designed factories. In the year 2008, they made one thousand one hundred fifty spreaders by way of utilizing quality parts to guarantee dependability and top standards. Major characteristics of ELME comprise design simplicity, market response and ground-breaking modular spreader concept.
